**Art Exhibition Features Latest in Architecture**

An exhibition featuring the achievements and new creative solutions in the world of architecture will begin a 26-day showing at the Los Angeles Municipal Art Gallery, Wednesday, Aug. 17, and will continue through Sept. 11.

Given the name "Form Givers at Mid-Century," the exhibition defines the role played by 13 leading architects of our time. The exhibition is sponsored by Time in cooperation with the American Federation of Arts.

Architects whose work will be highlighted in the show

**State Manufacturing Beats Nation's Average**

"The wheels of California's economy are spinning at a faster clip than the nation as a whole" according to a study just completed by the Economic Development and Research Department of the State Chamber of Commerce.

Between 1954 and 1958, the two most recent census years, employment in California manufacturing increased some 18.2 per cent from 1,027,000 to 1,215,000. During the same period, manufacturing employment registered a slight decline in the United States as a whole.

are Frank Lloyd Wright, Ludwig Mies van Der Rohe, Walter Gropius, Eero Saarinen, Wallace K. Harrison, Edward D. Stone, Philip C. Johnson, Buckminster Fuller, Richard Neutra, Alvar Aalto and Le Corbusier. The exhibition will focus

primarily on one major work by each of the featured architects. It will include models, color and black-and-white photographs, and small drawings accompanied by appropriate text. Actual materials, such as glass, grilles, bronze mullions, concrete

bricks and other elements in construction are included. The Municipal Art Gallery is located in Barnsdall Park atop the hill at Vermont Ave. and Hollywood Blvd. The exhibition will be open to the public without charge. It is open from 1 to 9 p.m., weekdays and 1 to 5 p.m., Saturdays and Sundays.

**Instructors Plan Sabbatical Leaves**

Romance of the open road beckons to three Harbor College professors who are planning sabbatical leaves for the 1960-61 college year.

Ruth Jane Morrison, Sidney J. Ruffner, Eugene N. Gottsdanker, instructors of vocational nursing, Spanish, and geology, are taking to the road, since each one is planning to travel principally by land during his year away from the campus.

Miss Morrison will drive by way of New Orleans and Pensacola to New York, where she plans to attend Columbia University to work toward a doctorate in nursing education.

Her studies will include nursing techniques involving the use of radioisotope therapy, rehabilitation procedures used by the Bellevue-Columbia Rehabilitation Clinic, and a short tour of duty with the Lobenstein School of Midwifery.

Before her return to the local campus in September, 1961, she will have completed her plan to see every state in the union—only Alaska will remain unvisited.

Dr. Ruffner will spend the year in little-known parts of the world, traveling by land as much as possible. His itinerary includes Australia, Tasmania, Ceylon, and Cambodia.

In his study of the cultures of various countries, he will obtain material and films for future lectures and magazine articles.

Accompanied by his wife, Ida, and two sons, Tony, 17, and Greg, 12, he will visit not only scientific sites but also resort areas, which, he says, make ideal winter vacation spots. Tourists who are shivering in the rains of Paris and Rome, could be basking in the sun of Cuenavaca, he points out.
